

DANIEL TYRRELL LANDSCAPES

## STYLISH AND FUNCTIONAL DESIGN

CREATING LUXURY HIGH END OUTDOOR AREAS

The client's brief for this stylish project was to create an outdoor area that combines a parking area, a plunge pool, an entertaining area and shaded areas to relax in. This called for clever design from Daniel Tyrrell of Daniel Tyrrell Landscapes to create a space with a little bit of wow whilst utilising every inch available.

To meet the client's needs great attention to detail was necessary to ensure the design fulfilled the brief, while still adhering to budget limitations.

The sharp lines of the design create a very contemporary feel, enhanced by the use of bluestone paving, the steel shade structure, the glass edge of the pool, colourful mosaic tiles and the interesting combination of materials and textures that was created through mixing iron bark seating, timber panels and buffalo lawn into the design.

The house opens out onto the paved area, creating an uninterrupted flow between inside and out, and the innovative design of the pool against the glass window also makes for a greater unity between the two areas, bringing a bit of the outdoors inside.

At night LED lights and garden uplights highlight the design features of the outdoor area and softly accent the different plants that were incorporated into the landscape, including pyrus, jasmine, gardenia and carex. This creates an ambient setting for entertaining and taking a dip on a warm evening. Hidden water tanks keep the plunge pool topped up, adding a water-saving element to the design.

Daniel Tyrrell Landscapes is an experienced company that specialises in high end residential landscape construction and design. The company was awarded a silver medal at the 2008 Melbourne International Flower and Garden Show, a true testament to their stunning work.

Undertaking only ten projects a year, you know that with Daniel Tyrrell Landscapes you are getting only the best in outdoor design.
