

DANIEL TYRRELL LANDSCAPES

SIMPLY STUNNING

LUXURY HIGH END OUTDOOR DESIGN

The following outdoor design is simply stunning. If it were to be described in one word it would be 'smart'.

The design stands out with striking hard surfaces and the clean modern finish of ground concrete. The attention to detail here is impressive, with every inch of the design carefully considered.

The clients wanted to be able to comfortably use all of their rear garden space. Self closing rear doors, rather than a post fence, help to achieve this, by making the most of the available space.

The design is incredibly functional because it opens up the space to all facets of entertaining, from laying on the lawn on a lazy afternoon, to more formal gatherings.

Pool construction by Out From The Blue

Some of the stunning plants used in this design include bamboo, magnolia little jern, gardenia radickens, liriopie and birdnests used as accent plants.

Honed sandstone adds a touch of luxury underfoot, while two 10,000 litre water tanks, one in the front and one in the rear, add a sense of environmental responsibility to the design.

Daniel Tyrrell Landscapes specialise in high end residential landscape construction and design. The company was awarded a silver medal at the 2008 Melbourne Flower and Garden Show, a true testament to their stunning work.

Undertaking only ten projects a year, you know that with Daniel Tyrrell Landscapes you are getting only the best in outdoor design.
